“A preoccupation with sexual reading materials or movies imbalances the lower chakras and draws entities to the aura. The more intensely we identify with our carnal natures, the more bound to the earth we are, and unable to work in the higher planes. *Occasional* [italics mine] tension release through masturbation or male-female sex is normal and does not interfere with aura balance. Reading pornography in order to excite the carnal senses attracts luciferics and earthbounds to the aura. Pornography in movies excites the very lowest chakras, thereby draining the higher chakras from energy to fulfill the soul's purpose. Reproduction, Yin-Yang balance through heterosexual sex, expressions of love, and tension release are all aspects of sex that are not destructive. Obsessive, perverse, or violent expressions of carnal nature draw all manner of evil to the aura. Watching such actions on TV also draws the evil to your aura.”
