

## LOWER PSYCHISM

Type of Affliction / Entity	Frequency of Attraction	Number Possible	Comments
UFO ENERGIES, cont'd			their power time. (3:00AM seems to be common.) UFO entities traumatize the aura and a person's feeling of physical weakness increases. (It is easier for these to attach under a New Moon or Full Moon.)
	Lower Psychism	2	
	Spirit Summoning	1	
TRIBULATION	Spirit Summoning	1	Prevalent at nighttime, this dark-force energy often causes a feeling of agitation and is attracted by spiritual laziness, alcohol consumption, physical weakness & stagnant water.
ARMAGEDDON	Lower Psychism	3	This type of dark-force spirit seems to be linked with physical weather patterns, geological conditions and full moon energies: certain underground areas, earth tremors, air storms and changes in ionic charge. Symptoms of affliction can include agitation, paranoia and hostility.

“Any seance is an invitation to low level earthbounds and demonics. Since demonics can read your mind, they can mimic any dead relative you have in order to fool you into inviting them back.

“Probably ninety percent of all channeling is from dark forces. Every channeler I have met was possessed, addicted, and sick. . . . The worst cases of demonic possession I have seen had o do with a careless, reckless attitude toward lower psychism.” (Ibid, p. 89.)

<sup>5</sup> Other types of elementals: “pit bull elementals”—attach to people’s necks and can cause severe headaches (and rip and pull at people’s auras); serpentine elementals—huge enties that seem attracted to water and wrap around the victim; bat-like elementals that flutter around people, depressing and agitating them. Low vibratory emotions attract and feed these. People who are hostile, depressed or jealous can swarm with these types of spirits.
